

I am MD. Mahfujur Rahman, a committed professional in computer science and engineering with a robust foundation in software development and education. My expertise encompasses Flutter application development, state management (Provider, Getx), and backend integration utilizing SQL, SQLite, and Firebase. I possess a fervent interest in deep learning and artificial intelligence, complemented by practical experience in Python, TensorFlow, PyTorch, and image processing methodologies. I am an adept communicator and seasoned lecturer with a proven history of mentoring individuals in technology. I am enthusiastic about utilising my technical expertise and pedagogical talents to promote growth and innovation as a coach or mentor in the future.

MD. MAHFUJUR RAHMAN
